Alex Morgan

Results-Driven Senior Backend Engineer

alex.morgan@example.com · Austin, TX

SUMMARY

Passionate, results-driven backend engineer leveraging Go, Kafka, PostgreSQL, Kubernetes, AWS, Terraform, microservices, distributed systems, idempotency and payments expertise to drive scalable, high-impact solutions and cross-functional synergy.

EXPERIENCE

Senior Backend Engineer · Confidential 2021 – now

- Leveraged Go, PostgreSQL and Kafka to deliver robust, scalable payments microservices.
- Spearheaded distributed systems best practices including idempotency, retries and observability.
- Collaborated cross-functionally to drive innovation and deliver business value.

Backend Engineer · Confidential 2019 – 2021

- Utilized AWS, Terraform and CI/CD to optimize cloud-native infrastructure.
- Championed clean code, design docs and code reviews.

EDUCATION

B.S. Computer Science

SKILLS

Go, Golang, PostgreSQL, SQL, Kafka, Kubernetes, AWS, Terraform, CI/CD, REST, gRPC, Microservices, Payments, Fintech, Idempotency, Distributed Systems, On-call
