Daniel Okoye

Software Engineer, Backend

daniel.okoye@example.com · Lagos, Nigeria (remote)

EDUCATION

B.Sc. Computer Science, University of Lagos, 2019

SKILLS

TypeScript, Node.js, NestJS, PostgreSQL, AWS (SQS, Lambda), Docker, Go (learning), Datadog

EXPERIENCE

Software Engineer · Fleetbase (logistics SaaS) 2021 – now

- Own the billing service in TypeScript (NestJS) on PostgreSQL; invoices for 9k customers a month.
- Added retries with backoff and a dead-letter queue on SQS; failed webhook deliveries dropped from 2.1% to 0.2%.
- Joined the on-call rotation; wrote runbooks for the 6 most common incidents.
- Started a Go service for rate limiting; learning Go in production.

Junior Developer · Brightdesk 2019 – 2021

- REST endpoints and SQL reports for a helpdesk product (Node.js, MySQL).
