Priya Raman

Backend Engineer

priya.raman@example.com · Bengaluru, India

SUMMARY

Backend engineer, 5 years on payment systems in Go and PostgreSQL.

EXPERIENCE

Backend Engineer II · Paylane (payments API) 2022 – now

- Rebuilt the payout service in Go; 1.2M payouts a month with idempotency keys and zero duplicate transfers since launch.
- Designed the double-entry ledger schema in PostgreSQL; month-end reconciliation went from 3 days to 4 hours.
- Moved settlement events to Kafka with an outbox pattern; on-call pages for stuck payouts fell 70%.
- Wrote 14 design docs; led the v2 Payouts API used by 300 merchants.

Software Engineer · Cartwise (e-commerce) 2020 – 2022

- Built order and refund APIs in Go; p99 latency 140 ms at 2k requests/s.
- Terraform modules for the team's AWS RDS and SQS setup.

EDUCATION

B.E. Computer Science, PES University, 2020

SKILLS

Go, PostgreSQL, Kafka, gRPC, REST API design, AWS (RDS, SQS, ECS), Terraform, Grafana, on-call
